NAVAL INTELLIGENCE COMMAND

COMMAND HISTORY

CY 1985

- 2 JAN 85: Specialist conducted EEO portion of new employee orientation.
- 8 JAN 85: Sponsored a Command Commemorative Program for Dr. Martin Luther King, Jr. The guest speaker was Rev. Lewis Anthony.
- 29 JAN 85: NIC-12 attended Tactical Flag Command Center (TFCC) Navy Training Plan (NTP) Conference in San Diego.
- JAN 85: Installed a SAFE terminal to give JNIDS access to selected message traffic based upon JNIDS-defined profiles.
- JAN 85: Funded Naval Ocean Systems Center to develop a DSAT-like data base which contains sensitive subcompartmented information not available in any other automated system (current system requires analysts to manually search and manipulate this data).
- JAN 85: Participated with NIPSSA and NOSC in establishing a communications link between NAVOPINTCEN and Strategic Air Command (SAC) to provide SAC analysts with actual DSAT data related to SSBN locations.
- JAN 85: Continued execution of FY 1985 claimant funds, entering second quarter.
- JAN 85: Began entering own accounting data into Integrated Disbursing and Accounting (IDA) system. Anticipated taking over this function from AAA would greatly improve accuracy and timeliness of accounting reports. This expectation was realized as year progressed.
- JAN 85: Put NAVINTCOM sections of FY 1986 Congressional Budget Justification Book (CBJB) into final form for OP-009.
- JAN 85: Submitted FY 1986 President's Budget to NAVCOMPT (in same amounts as shown in CBJB--only time in the year when the Navy data base matches the GDIP data base). Budget contained \$146.1 million in Subhead 1230 and \$56.9 million in OPW. Budget contained no R&D although such funds appear in CBJB (we are not the claimant).

- JAN 85: Completed NAVINTCOM Five Year Plan for period FY 87-91.
- JAN 85: Revised SECNAVINST 7042.12A, covering policy for use of emergency and extraordinary expense (O&MN SH 1230) funds.
- JAN 85: Funded design work for relocatable building for NAVOPINTCEN.
- JAN 85: Sent RWA to GSA for shielding Room 139, building NIC-I (DASC).
- JAN 85: SCI billet management function for DDCI commenced at Suitland, having been moved from the Pentagon SSO (NIC-42) to collocate with other SCI personnel security functions. Billet management of Pentagon and support to Navy SCI programs remained with NIC-42.
- JAN 85: Commenced establishment of WANG Data base requirements to support the SCI adjudicative functions of SSO Navy/NIC-U4.
- JAN 85: Increased manning of NAVINTCOM Security Reserve Unit 0166, approved in March 1984, was finally seen in assignment of additional officers. Enlisted increase not felt until February. Unit increased from 46 to 60, permitting considerable expansion of production role into SSO operations and more data base maintenance and adjudicative support.
- JAN 85: ACDUTRA team from NAVINTCOMSEC 0166 worked an evening shift in NIC-41 to carry out some 1,200 SCI personnel security adjudications. Reduction of the critical adjudicative backlog had immediate impact on the entire Navy in permitting faster and more responsive access of personnel.
- 4 FEB 85: Sponsored Black History Month Kick-Off. Commodore Hoffman gave opening statement.
- 5 FEB 85: Sponsored Computer/Lecturer Performance-Presenter was Mr. Ersky Freeman.
- 6 FEB 85: Specialist conducted EEO portion of new employee orientation.
- 11 FEB 85: Sponsored Genealogy Presentation "Family Roots: Historical Strengths" - speaker was Dr. Elizabeth C. Lewis.
- 12 FEB 85: Sponsored Exhibit of "Blacks in the Civil War" - presenter was Mr. Carroll R. Gibbs.

- 12 FEB 85: NIC-122 attended Post Deployment Debrief for USS EISENHOWER (CVN-69).
- 14 FEB 85: Sponsored slide presentation of "Black History at the National Archives" - presenter was Dr. Debbie Newman.
- 23 FEB 85: The Developmental Submarine Analysis Testbed remote access line and equipment installation completed at SAC.
- 26 FEB 85: Sponsored play "1001 Black Inventions."
- 28 FEB 85: Sponsored Black History Month Luncheon. Guest speaker was Ms. Penny Mickelbury.
- 28 FEB 85: Signature Analysis Subsystem, a subsystem of the Acoustic Analysis Input Processing System of IAIPS was formally accredited in the SENSEK (SECRET) system high security mode of operation.
- FEB 85: New Classification Standard for Computer Operator, GS-332-0 implemented.
- FEB 85: Held COMNAVINTCOM/COs ranking session for General Defense Intelligence Proposed Program (GDIPP), using Five Year Plan as basis.
- FEB 85: Subsequently held joint GDIPP ranking session at Camp Peary, with Deputy DNI, J2s, N2s, FIC COs, and NAVINTCOM COs.
- 6 MAR 85: Specialist conducted EEO portion of new employee orientation.
- 17 MAR 85: The Developmental Submarine Analysis Testbed remote access line and equipment installation completed at FOSICLANT.
- 18 MAR 85: OP-009P verbally declared the IAIPS Message Processing and Distribution System and the Local Area Network (SYTEK LOCALNET 20) had demonstrated full OPNAV security accreditation for SCI system high operation. These were the first IAIPS subsystems to achieve final accreditation.
- 22 MAR 85: CAPT Idleberg reported for duty as Special Assistant for Naval Attache Affairs.
- 22 MAR 85: NIC-01, 01A, and 12 attended the first in a series of space meetings on a Joint Space Intelligence Curriculum at DIAC.

- 26 MAR 85: The NAVINTCOM Sailor of the Year Selection Board met to consider and interview the following candidates for the SOY program:
- | | |
|---------------------|-------------|
| CTO1 G. E. Sweitzer | NIPSSA |
| ISI D. S. Dobbins | CTF-168 |
| YN1 J. M. Walsh | NAVINTCOMHO |
| ISI H. W. Sparks | NAVOPINTCEN |
| CTT1 D. C. Grant | NISC |
- ISI D. S. Dobbins was selected as the NAVINTCOM Sailor of the Year for 1985.
- 27 -
28 MAR 85: NIC-122 attended USS INDEPENDENCE (CVN-6) Post Deployment Debrief in Norfolk.
- MAR 85: Established Memorandum of Agreement with Naval Research Laboratory to share information on ongoing projects pertinent to intelligence processing and advanced ADP technology.
- MAR 85: Based on completed documentation of the SLBN threat analysis functional baseline and technology assessment, conducted competition for award of contracts to develop four expert systems to improve and accelerate the analytical functions performed by the Naval Operational Intelligence Center analysts and to develop a Testbed Facility.
- MAR 85: Held first meeting with CHESDIV representatives to discuss plans for MILCON project covering new NAVINTCOM building in FY 89.
- MAR 85: GSA granted 3-year permit for relocatable building.
- MAR 85: Established SCI adjudicator in Navy Liaison position at Defense Investigative Service Personnel Investigations Center (Fort Holabird, MD). This immediately enhanced our ability to respond to time sensitive requirements for personnel SCI eligibility determinations, from once weekly to nearly daily service. Impact was profound on entire Navy SCI program, and necessity for granting access without review of available investigative data was eliminated.
- 1 -
4 APR 85: NIC-01, NIC-12, and NIC-122 attended Navy and Marine Corps Intelligence Training Center (NMITC) Curriculum Review and Consolidation Workshop at Dam Neck, VA.
- 3 APR 85: Specialist conducted EEO portion of new employee orientation.
- 8 -
2 APR 85: NIC-12 and NIC-122 escorted Naval Postgraduate School Intelligence Curriculum students on Washington tour.

- 10 APR 85: DSAT remote terminals were installed at LANT and SAC and connected to the DSAT Host at Suitland.
- 22 - 24 APR 85: NIC-13 attended the NRIP Training Advisory Board meeting in Washington, DC to confer with NRIP representatives on training plans and policies.
- 23 - 25 APR 85: CDEEOO attended CNO EEO Council Meeting.
- 26 APR 85: Provided documented information to the Defense Intelligence Agency (DIA) outlining current Navy policy and procedures with respect to the Defense Attaché System (DAS). The Navy input formed a portion of a DIA study in response to a Senate Select Committee on Intelligence query on improvements in the DAS.
- 30 APR 85: CDEEOO conducted 4 hours EEO training for command managers/supervisors.
- APR 85: Developed methodology for selecting future JNIDS projects.
- APR 85: Submitted FY 1987 GDIPP to OP-009.
- APR 85: Started third quarter execution of FY 1985 funds.
- APR 85: Additional funding for relocatable building.
- 1 MAY 85: Specialist conducted EEO portion of new employee orientation.
- 1 MAY 85: Specialist attended 3-day Handicapped Conference, "President's Committee on Employing the Handicapped," at the Washington Hilton Hotel.
- 13 - 16 MAY 85: Specialist attended a 3-day DDEEOO/Staffing Conference in Atlanta, GA.
- 14 MAY 85: Provided Navy input to the DIA publication - Defense Guide for Attachés.
- 15 MAY 85: Assisted DIA in support of CAPT John Colgan, ALUSNA Ottawa, whose wife was fatally injured in Ottawa.
- 16 MAY 85: The Coast Guard SPINTCOMM for COMLANI area NY was connected to the NSGA Homestead Streamliner facility and activated.
- 20 MAY 85: CDEEOO conducted 4 hours EEO training for command managers/supervisors.

- 23 MAY 85: CAPT Lucian C. Martinez, former COMNAVINTCOM NIC-00N, retired.
- 28 MAY 85: Specialist attended 4-day Hispanic Conference "IMAGE" in Seattle.
- 28 - 30 MAY 85: NIC-12 attended Advanced Imagery Systems meeting at Offutt AFB, NE.
- MAY 85: Developed "users' guide" for Subhead 1230 funds.
- MAY 85: Advised by SECDEF that Navy must obtain Congressional approval for relocatable building.
- MAY 85: Revised NAVINTCOMINST 7000.2D to improve controls over Subhead 1230 funds. SECNAV staff approved draft in August. At year end, draft was still under review by NAVJAG.
- MAY 85: Began GAO audit of fund controls and expenditure documentation for Subhead 1230 funds. GAO indicated satisfactory status in August with advice that survey was complete for this command.
- MAY 85: Received approval to purchase relocatable building.
- MAY 85: As result of severe reduction in the number of Periodic Reinvestigations we were permitted to request from DIS, falling below 500 monthly from March, we were forced to extend the period before reinvestigation from 4 1/2 to 6 years, thus reducing security assurance.
- MAY 85: The former Naval Material Command Staff Intelligence Office was transferred to COMNAVINTCOM subsequent to NAVMAT's dissolution. Functions were transferred immediately, and the new NAVINTCOM SCI Contractor Management/STILO Division (NIC-44) was established. Transfer of personnel to NAVINTCM was plagued with administrative uncertainties, but 11 personnel were eventually transferred. Of these, three military billets were lost in October.
- MAY 85: ACDUTRA team from NAVINTCOMSEC 0166 worked evening shift in NIC-41 to carry out some 1,300 SCI adjudications. Combined regular/reserve effort dedicated to eliminating the adjudicative backlog, resulted in our highest ever recorded weekly total of SCI eligibility determinations (880).
- MAY - JUN 85: NIC-12 attended Intelligence Imagery Architecture meetings chaired by NISC-70.

- 5 JUN 85: Specialist conducted E&U portion of new employee orientation.
- 17 JUN 85: Mr. Byron L. McGowan assumed duties as Intelligence Tasking and Production Management Division Director (NIC-521).
- 25 JUN 85: Promulgated Navy HUMINT Plan - blueprint for a comprehensive Navy HUMINT organization.
- 28 JUN 85: Mr. Rodger L. Gray, Mail Room Supervisor (NIC-53) departed the command with no contact relief.
- JUN 85: Established Memorandum of Agreement with Rome Air and Development Center to share information on on-going projects pertinent to intelligence processing and advanced ADP technology.
- JUN 85: Selected Soviet Air Launched Cruise Missile (ALCM) threat analysis as second project; established project milestones.
- JUN 85: Effectuated transfer of function from NAVMAT-U91 to NIC-U4.
- JUN 85: Funded CHESDIV studies for MILCON project.
- JUN 85: Met with CHESDIV to develop preliminary Form 1391 for MILCON project.
- JUN 85: Requested approval for JNIDS portable shielded enclosure.
- JUN 85: Began internal review of current and prior year O&MN and OPN funds to determine whether obligational authority had been exceeded. Review concluded in September. Reasonable assurance that apparent over-obligations reported in official records were result of accounting errors and were not legal violations.
- JUN 85: Prepared FY 1987 NAVCOMPT budget, based on FY 1987 GDIPP, amended as necessary to meet Navy controls.
- JUN 85: Issued first Navy SSO On Watch Bulletin, designed to provide SSO's throughout the DON with policy and procedural guidance and security awareness materials. Most of the production of the Bulletin was done by NAVINTCUMSEC 0166, who thus provided an important service that was beyond the capacity of regular assigned staff. Reaction was highly favorable, and SSO performance of many functions improved dramatically.

- JUN 85: NIC-04 reassumed responsibility from the CNO Security Policy Division as the Navy's Single Point of Contact with DIS for controlling the submission of requests for periodic reinvestigations. Quotas remained low March through October, with the result that a very large backlog of cases awaiting investigation built up.
- JUN 85: SECDEF directed 10% reduction in number of cleared persons within DOD and defense industry, to be accomplished by 1 October; and a 10% reduction in numbers of requests for background investigations submitted for FY 86 based on the number of submissions in FY 84. Reduction in number of Top Secret clearances exceeded 20% in DON, but had little impact on those with SCI access. Mandated limit of 12,226 in number of requests for Special Background Investigations (SBI) was about 25% short of anticipated Navy-Marine needs. Effort continued into next year to obtain authorization for downgrading and decompartmenting one main imagery product. Lacking such authority, upgrade of Fleet Imagery Support Terminal (FIST) system from Secret to SCI was initiated, which will result in as many as 1,500 additional attack aviation and amphib personnel having to initiate SBI's.
- 1 JUL 85: CSO-4 became the NAVINTCOM ADP Security Officer under the cognizance of the Commanding Officer, Naval Intelligence Processing System Support Activity subsuming duties and responsibilities previously performed by OP-009P in managing the Department of Navy ADP SCI Security Program in direct support of the Director, Naval Intelligence.
- 3 JUL 85: IAIPS Acquisition Plan was approved by RADM Sansone (NAVSUP). Additionally, the Justification and Approval (J&A) for the IAIPS Development Contract, FY 86/87 BOA contract and the IAIPS SE/TA contract have been completed and approved.
- 10 JUL 85: NIC-12 attended the Joint Interoperability of Tactical Command and Control Systems (JINTACCS) NTP Conference.
- 12 -
14 JUL 85: NIC-12 and XO TF 168 attended training discussions in Saudi Arabia.
- 16 -
18 JUL 85: NIC-122 attended ROTHR NTP Conference.
- JUL 85: Started third quarter execution of FY 1985 funds.

- JUL 85: Advised CNO (0R-04) of plans for MILCON project, requesting guidance for presenting same if required at annual Shore Facilities Planning Board. Was subsequently advised no presentation required if sponsor supported project.
- JUL 85: Received CHESDIV's scope of work and preliminary Form 1391 for MILCON project.
- JUL 85: Funded purchase of relocatable building.
- JUL 85: CDR Mary James, USN, Security Department Deputy Head, was detailed elsewhere without relief, leaving remaining personnel with considerable administrative overload in department of 66 personnel.
- 7 AUG 85: The Naval ELINT Analysis Tool (NEAT) was replaced by the Development Unified ELINT Tracker (DUET) at NAVOPINTCOM.
- 7 AUG 85: Specialist conducted EEO portion of new employee orientation.
- 22 AUG 85: NIC-12 attended USMC Intelligence Conference.
- 25 AUG 85: Mr. Joel R. McCowan assumed duties as Mail Room Supervisor (NIC-53) and was appointed Top Secret Control Officer for NAVINTCOMHQ.
- 27 AUG 85: NAVINTCOM conducted Defense Advanced Language and Area Studies Program (DALASP) review.
- 29 AUG 85: Two C-30 IMP's were installed in the NIC-1 SCI Service Center and NIC-II. This connection will provide the first host-to-host connection for IAIPS. This is an interim capability until the DODIIS CNIN Network is installed in FY 87.
- AUG 85: Completed indepth review and purging of all Official Personnel Folders.
- AUG 85: Prepared annual internal control program report including certificaiton statement signed by NIC-00.
- AUG 85: Provided FY 1990 Forms 1450 to CHESDIV for feasibility study of MILCON project.
- AUG 85: Received IND/GSA approval for JIVIDs shielded enclosure.
- AUG - SEP 85: All DON SCI billets were reviewed in response to DCI tasking. While no set reduction was mandated, 1,365 billets were deleted (over 3% of the Navy-wide total; over 4.3% of the non-cryptologic billets).

Modest reductions continued, with NIC-04 and fleet CINC scrutiny of every billet action, offsetting necessary increases because of new fleet requirements (mostly FIST).

- 1 SEP 85: CDR Herbert F. Bryan, USN, Assistant Commander for Data Resources and Production Management (NIC-05) departed the command.
- 1 SEP 85: CDR Mary C. James, USN, assumed duties as Assistant Commander for Data Resources and Production Management (NIC-05).
- 4 SEP 85: Specialist conducted EEO portion of new employee orientation.
- 6 SEP 85: The Inspector General completed the initial course offered by the Naval Inspector General.
- 10 -
14 SEP 85: CAPT Idleberg attended the 1985 Latin American Defense Attaché Conference in Panama.
- 16 SEP 85: A formal demonstration of the GESCAN-II system in the GENSEK Service Center was conducted by SDC. This demonstration was a proof-of-concept which ultimately will lead to a high speed text search capability on the message processing system.
- 16 SEP 85: LCDR Geoffrey P. Wilson, USN, Director Production Management Division (NIC-52) departed the command with no relief.
- 24 SEP 85: COMNAVINTCOM - NIC-00N, named the central point of contact in the event of an emergency evacuation/safe haven incident involving dependents of Navy members assigned to the Defense Attaché System.
- SEP 85: Disseminated guidance for FY 1988-1992 Five Year Plan.
- SEP 85: Submitted OSD budget to NAVCOMPT.
- SEP 85: Completed FY 1985 budget execution. Certified obligations of \$125.9 million (obligation rate of 99.6 percent). Manpower on board 30 Sep 242 officers, 795 enlisted, and 1,216 civilians.
- SEP 85: Installed remote TV camera at rear of NIC-1.
- SEP 85: Installed cage partitions in Butler hut at rear of NIC-1.
- SEP 85: Began Naval Audit Service review of headquarters, which lasted until December. Review addressed

civilian pay and benefits, property, comptroller functions, civilian personnel management, support services, and communications. No material findings. Minor deficiencies noted including lack of supervisory review of travel claims, lack of internal controls specifically addressing frequent flyer bonuses, lack of annual safety inspections, and too many telephones. We disagreed with supervisory review of travel claims, arranged for safety inspections, are revising travel instruction to include frequent flyer bonus, and started an inventory of telephone equipment and lines (which will take about a year to complete).

- SEP 85: NIC-04 reassumed responsibility as DON Single Point of Contact for submission of periodic reinvestigations to DIS. 2,600 pending cases were retrieved from the OPNAV Security Policy Division, and organized for shipment.
- 2 OCT 85: Specialist conducted EEO portion of new employee orientation.
- 7 OCT 85: Outline review for IS 3/2 Volume III was completed by NIC-122.
- 7 OCT 85: Formal approval to restructure Intelligence Specialist (IS) Rating and establish four new IS NECs was received from the Navy Enlisted Occupation Classification System (NEOCS) Board.
- 7 - 8 OCT 85: CDEEEOO visited Prairie View A&M University for the purpose of recruiting minority applicants.
- 8 OCT 85: Sponsored Handicapped Workshop - speaker: Ms. Diana Cohen.
- 10 OCT 85: COMNAVINTCOM certified completion of required annual Intelligence Oversight training to the Naval Inspector General.
- 17 OCT 85: NIC-01 and NIC-121 attended General Defense Intelligence Program (GDIP) training review for DALASP.
- 17 OCT 85: New IS Occupational Standards were written and approved.
- 17 OCT 85: Mr. Samuel L. Morison was found guilty of espionage and theft for giving classified information and photographs that were classified secret to a British magazine. Mr. Morison was employed as an Intelligence Research Specialist by the Naval Intelligence Support Center. He had been arrested on 1 October 1984 by members of the Naval Investigative Service

and the Federal Bureau of Investigation and had been placed on indefinite suspension pending resolution of the criminal charges filed against him.

- 18 OCT 85: The 1985 NAVINTCOMHO civilian awards ceremony was held. A total of 45 awards were presented: 31 Sustained Superior Performance awards, 6 Quality Salary Increase awards, and 8 Outstanding Performance Rating awards.
- 21 OCT 85: Mr. Patrick Johnson replaced Dr. Richard Jaffee as the NOSC liaison representative for COMNAVINTCOM.
- 22 OCT 85: Obtained CNO (WP-009) and DIA validation of LANTCOM Theater Intelligence Mission Element Need statement.
- 28 - 31 OCT 85: NIC-01, NIC-12, and NIC-113 attended NMTC Planning Conference at Dam Neck, VA.
- 29 - 31 OCT 85: CDEEO attended CNO EEO Council Meeting.
- 31 OCT 85: The FWP sponsored a luncheon. Guest speaker was Ms. Lea Thompson, WKC-TV.
- OCT 85: Purchased Tektronix 4404 as an AI workstation.
- OCT 85: Began data collection to baseline current analytical functions and procedures; baseline and functional descriptions will be incorporated in Statement of Work for competitive contracts to be awarded in CY-86.
- OCT 85: JNIDS-developed ALCM analytical aids will directly support SAC and USSPACECOM with spinoffs pertinent to Alaskan Air Command, United States Air Forces in Europe, and potentially USCINCLANT and USCINCPAC.
- OCT 85: Completed staffing data capture for Naval Civilian Personnel Data System (NCPDS).
- OCT 85: Began FY 1986 under Continuing Resolution Authority (later given status of appropriation act). From the \$146.1 million contained in budget for Subhead 1530, we transferred \$2.4 million to SPAWAR and \$2.0 million to NAVTELCOM for SPINTCOM support. Received additional \$1.5 million restoring civilian pay cut disapproved by Congress. Lost \$1.2 million in O&MN from Congressional cuts by Intelligence Committees--those committees cut O&P by \$3.9 million (PRAIRIE SCHUNER). NAVCOMPT cut FY 86 O&P by additional \$11.4 million on basis of low obligation rates, stating no programmatic cut intended. Decided to proceed with procurement under original

program and to request NAVCOMPT to restore cut when obligational authority was exhausted.

- OCT 85: Opened support coordinator's office at Pentagon to handle support for personnel functionally transferred from OP-009 to NAVINTCOM.
- OCT 85: Published first automated contract status report, designed for reconciliation with monthly execution report. We now have for first time capability to monitor progress of all external assistance contracts from acquisition plan through execution. Began extensive inventory of all property, including that at Pentagon (inventory completed in December). Developed automated data base for inventory. Updated or retired hundreds of property records.
- OCT 85: Transferred Subhead 1230 audit functions from Reserve Unit 0166 to Reserve Unit 0266.
- OCT 85: Prepared annual personal review of Subhead 1230 expenditures for COMNAVINTCOM certification to SECNAV. No discrepancies noted.
- OCT 85: Started construction of JNIDS shielded enclosure (completed in November).
- OCT 85: Moved NISC translators to Wolfe Building as first step in GSA renovation of NIC-I. Phase I of project includes new elevator, renovation of 6 restrooms, and refurbishment of lobby. Phase II must await removal of NSIC to Navy Yard so that third floor of NIC-I will be available for swing space.
- OCT 85: COMNAVINTCOM (NIC-44) assumed responsibility for special security administration of all DON contacts in which contractor access to SCI is required. A smooth transfer of billets, incumbents and contractor SCI facilities effected. Cleanup and correction of erroneous data in the files continued into the new year.
- OCT 85: As a result of Naval Inspector General-identified security vulnerability, requested and obtained from NIS prompt notification whenever a criminal or counterintelligence investigation is opened on an individual with SCI access. Process worked smoothly.
- 1 -
5 NOV 85: NIC-13 attended the NRIP Management Conference at Treasure Island. DNRIP, RIACs, RIPOs, and Command RLOs attended to discuss present and future administrative requirements, production reports, and organization.

- 4 NOV 85: The FWI sponsored a program on Spousal Employment. Guest Speaker was Ms. Sue Manes, Head of the DON Committee on Spousal Employment (OP-14).
- 4 - 7 NOV 85: NIC-122 and NIC-111 attended Command Managed Equal Opportunity Command Assessor Team/Command Training Team Training Workshop.
- 4 - 8 NOV 85: CAPT Idieberg attended the Near East-South Asia Regional Defense Attaché Conference in London.
- 4 - 8 NOV 85: CBRECO trained and certified 9 command military personnel to conduct Command Managers Equal Opportunity mandate.
- 5 NOV 85: The FWI conducted a panel discussion on "Day Care Options". Panelists were Joyce Dowling, P.G. County Family Day Care Provider; Elizabeth Hazel and Sharon Schounacher, Virginia Social Services Department; and Zenobia Holbrook, D.C. Subsidized Day Care Program.
- 5 NOV 85: The Director of Naval Intelligence granted delegated CNO (OP-009) declassification, downgrading and initial denial authority to COMNAVINTCOM, normally to be exercised by the Inspector General or the Deputy Commander.
- 5 - 7 NOV 85: NIC-12 attended Defense Intelligence College Short Course User's Conference.
- 7 NOV 85: The FWI sponsored a "Stress Management Workshop." Guest speaker was Ms. Michele Balamani of De Leaver Balamani Mental Health Consultants.
- 8 - 10 NOV 85: COMNAVINTCOM (NIC-05, NIC-522) participated in the annual Intelligence Dissemination Conference at the Defense Intelligence Agency.
- 11 - 12 NOV 85: NIC-131 attended the Mobilization ADP Support Conference in Washington, DC to discuss problems and procedures concerning ADP systems within the Naval Reserve Community.
- 12 NOV 85: Requested OP-121's approval for Manpower Authorization Change Requests transferring 34 officers, 13 enlisted, and 29 civilian billets from the OP-009 staff to the NAVINTCOMNO.
- 16 - 17 NOV 85: NIC-13 attended the FICEURLANT Reserve Production Conference in Norfolk representing COMNAVINTCOM and CNO (OP-009). Met with 17 reserve unit commanding officers and their production officers, DNKIP Chief

of Staff and FIC personnel to discuss and plan for future production and mobilization training.

- 18 -
10 NOV 85: CDEtOO visited Southern, Tuskegee, and Atlanta Universities for the purpose of recruiting minority applicants.
- 20 NOV 85: The Developmental Submarine Analysis Testbed remote access line and equipment installation completed at CNO.
- NOV 85: Installed a COINS II Intelligence Analyst workstation (IAW) for analysts to access COINS files and display information from them on base maps stored on an optical disk.
- NOV 85: Staff visit to Demonstration Projects located at China Lake and San Diego, California for the purpose of reviewing those Personnel Management Systems.
- NOV 85: Effectuated transfer of function from OPNAV-009 to NIC-009.
- NOV 85: began work on FY 1987 CEBs, though PRB 331 establishing approved resource levels was not actually received until following January.
- NOV 85: Added to data base functional transfers from OPNAV (36 officers, 12 enlisted, 27 civilians), NAVMAT (5 civilians, 1 enlisted), NAVFAC Brawdy (4 enlisted), NAVALRPAC (4 enlisted), COMSURPAC (4 enlisted), NAVSEA (10 civilians).
- NOV 85: Funded additional \$7 thousand to upgrade roof of relocatable building.
- NOV 85: NISC 723 occupied renovated secure facility in Room 139.
- NOV 85: Slow start on Phase I of GSA prospectus.
- NOV 85: Combined high regular staff and Naval Reserve adjudicative output achieved the lowest number since the mid-1970's of cases awaiting adjudication for SCI eligibility (141). Backlog of cases pending had been 2,570 on 1 January 1985, and had not dropped below 2,000 since August 1983.
- NOV 85: Arrest of Jonathan Pollard and wife on charges of spying for Israel had heavy impact in bringing into question the security of the Suitland complex. Procedures for preventing unauthorized removal of classified info were tightened, and the use and handling of courier cards was curtailed and then

more tightly controlled. Pollard, an analyst in NSIC's anti-terrorism alert center and former employee of NISC, held SCI access.

- NOV 85: Loss of highly productive CNO curtailed a fast developing security awareness and education program and left the SCI facility inspection and accreditation effort critically short handed as the frequency with which we must inspect increased from all SCIF's in three years to all SCIF's every two years.
- NOV 85: Commenced investigative/interviewing and adjudication actions to prepare for deployment of USS ENTERPRISE Battle Group with first FIST terminal operating at the SCI level. Over 70 attack aviators were authorized SCI access.
- 3 DEC 85: Commenced aggressive and long-term effort to familiarize NAVOPINTCOM analysts with requirements generation process.
- 4 DEC 85: Mr. Morison was sentenced to two years in prison for his acts of espionage and theft.
- 5 DEC 85: A NAVOP message was released delineating the responsibilities of CO, NIPSSA and NAVINTCOM ADP Security Office for managing the Department of the Navy ADP SCI program.
- 13 DEC 85: Mr. Morison voluntarily resigned from his position just prior to being terminated. Mr. Morison has appealed his convictions and remains on bond pending that appeal.
- 19 DEC 85: Provided CNO (via DNI) a study of Navy personnel in the Defense Attache System, which mainly focused on priority attache requirements, and recommendations to fine tune the attache selection/retention process.
- 19 DEC 85: Developed first REGENT MATE collection manual (now in chop).
- 27 DEC 85: The Naval Audit Service, Capitol Region completed a scheduled audit in selected areas of the NAVINTCOM Headquarters. No major deficiencies were identified.
- 30 DEC 85: Provided impact statement to OP-132C7 on OP-01's proposed 3:3, seashore billet reduction for 1s.
- 30 DEC 85: A total of 204 Freedom of Information Act and 10 Privacy Act actions were completed during 1985.

- 31 DEC 85: The DNI gave approval for a memorial to be established at NMTC for ISL Wagner who was killed in action in Lebanon.
- 31 DEC 85: Hosted numerous visits by foreign intelligence staff officers and DNI's. Continuing and substantial progress being made in refining our many productive relationships with foreign intelligence agencies.
- 31 DEC 85: Expended considerable effort learning to live with DIA's Collection Operations Management System (COMS) and completed first annual HUMINT survey, both of which should have a major impact on our collection ops.
- DEC 85: During 1985, there were 95 Navy/Marine Corps Defense Attaché, Attaché, Assistant and Operations Coordinator positions throughout the world. New positions were established in Chile, Nicaragua, and Honduras; all will be filled in 1986. There were 44 Navy/Marine Corps support positions in the Defense Attaché System. The Chief of Naval Operations met with 19 newly assigned principal attaches prior to assumption of their duties. Six attaché selection interviews were conducted prior to nomination of principal attaches to the Defense Intelligence Agency. 38 attaches reported for duty, and 34 officer and 10 enlisted nominations were forwarded to the Defense Intelligence Agency for personnel assigned to the Defense Attaché System.
- DEC 85: COMNAVINTCOM received and validated 16 Intelligence Production Requirements (IPR's) and processed 27 IPR's for revalidation by originators.
- DEC 85: COMNAVINTCOM tasked 8,284 requests for unscheduled intelligence production.
- DEC 85: NIC-00E processed 30 EEO concerns of employees during the year. 90% (27) of the concerns were resolved at the informal level and 10% (3) resulted in employees filing formal complaints.
- DEC 85: Constructed approximately 1000 sq ft of shielded enclosure to allow compartmented processing on non-Tier 1st ANP equipment.
- DEC 85: Twelve of 22 JNIDS manpower positions were filled at end of year.
- DEC 85: Memorandum of Agreement among Directors of DIA, NSA, and Naval Intelligence; COMNAVINTCOM and SAC/IN expanded to include signatures of Director of Intelligence Community Staff; the senior intelligence

officers of the Army, Air Force, and Marine Corps; and Space Command J2.

- DEC 85: Completed FY 1988-1992 Five Year Plan and scheduled NAVINTCOM and joint ranking sessions for following January and February.
- DEC 85: Conducted OPNAV-sponsored Internal Control Program training course, attended by 55 mid and upper level managers.
- DEC 85: Met with CHESDIV to outline steps to be taken in feasibility study for MILCON project. Firm of Kress-Cox selected to conduct study.
- DEC 85: Read galleys on FY 1987 CMJIB, using advance copy of PhD 331 to identify approved resource levels. CMJIB contained split funding for MILCON project, required to accommodate total cost of \$112 million and remain within GDIP outyear controls. Project is budgeted at \$62 million in FY 1989 and additional \$50 million in FY 1991.
- DEC 85: Due to larger quotas of DIS periodic reinvestigations being permitted the DON (a congressional initiative in wake of the Walker case), we were able to go back to having investigations done every 5 vice 6 years. Some backlog of cases awaiting quota for submission to DIS remained into the next year due to the low quotas permitted between March and October.
- DEC 85: Commenced conversion of Navy SCI personnel security and access control records to the new 4C (Community-wide Computer-Assisted Compartmentation Control System), with conversion and cleanup work continuing into the next year. The conversion went smoothly for Navy, as a result of good ADP programming by NIPSSA.
- DEC 85: Second issue of the Navy SSO On Watch Bulletin was prepared for publication in January 1986. Editing and production were almost exclusively handled by NAVINTCOMSEC 0166 personnel, who have been charged with that recurring task in support of the Navy SCI community.
- DEC 85: All NIC-04 divisions with NIC-42 lead continued in-depth involvement through the entire calendar year with development and coordination of three new DOD SCI manuals setting forth authoritative security policy guidance and procedures.

NIC-04 NARRATIVE SUMMARY

In the area of Sensitive Compartmented Information (SCI) security, the DNI exercises overall responsibility and supervision for the entire Department of the Navy (including the Navy and Marine Corps, active and reserve, civilian employees, and Navy contractors) and the U. S. Coast Guard. CUMNAVINTCOM (with NIC-04 as SSO Navy) carries out the DNI's responsibilities for the DON SCI Security Program with the exception of cognizance over cryptologic personnel and facilities (exercised by CUMNAVSECGRU).

In a period of the highest Navy-Marine OPTEMPO and forward deployment rate in many years, the Navy Special Security System developed and maintained an extraordinary degree of responsiveness in providing timely personnel eligibility determinations (for SCI access), SCI facility (SCIF) accreditations, and special assistance for deployments and SPECOPS. The use of SCI by operating forces was increased dramatically. Our Personnel Security Division (NIC-41) devotes a substantial part of its effort in support responsive to urgent fleet requirements for SCI eligibility determinations, access authorizations, initiation or investigations, etc. Virtually no fleet or Marine unit deployment, special operation, or crisis involvement took place without NIC-41 providing much such security support. Some of these efforts were very large. The very rapid expansion in use of these efforts were very large. The very rapid expansion in use of SCI in training was fully supported and encouraged, with SCI-level training facilitated for thousands of naval personnel in the war colleges, Marine Corps schools, the Naval Postgraduate School, TAO training, Navy and Marine TENCAP training, etc. Despite those growing demands and surging workload, the NIC-04 organization maintained a very high quality of security work. The Walker espionage case, and the succeeding Pollard case have resulted in large-scale changes of policy and procedures to bolster security. Many of these have required us to devote many man days to implementing directives from SECNAV and CNO and to initiating actions for the Navy SCI Program. This work took precedence over other tasks, and involved not only paid overtime but countless hours of unpaid overtime by civilians and military personnel.

The SCI security work of the Naval Intelligence Command and the Naval Security Group has been brought into ever closer synchronization, resulting in much increased Navy involvement and influence in the development of SCI policy at the national and USD levels and elimination of differences in procedures which had troubled fleet users. Dramatic improvements were made in:

- Training for working-level Special Security Officers (SSO) and their assistants with new and improved courses developed.
- Expansion of NAVSECGRU security screening of personnel who will need SCI access, resulting in elimination of those unsuited before heavy investment of training and elimination of

long delays for the fleet before assigned personnel could receive SCI access.

- More efficient management of SSO resources in the Navy portion to the Defense Special Security System while realizing only very small expansion.

- Expansion of inspections and visits to provide assistance and training to SSOs and SCI facilities (SCIF) world wide, with substantial gains in the safeguarding of SCI. In some cases these visits and timely specialized advice resulted in savings of hundreds of thousands of dollars by avoiding over building in new SCIF's.

- Change in DOD required frequency of SCI facility reaccreditation inspections to once every two years placed considerable extra burden on the small NIC-43 staff as FY 86 began. However, they moved out with a very energetic schedule, augmented by three trained Navy and Marine Corps Reserve SCIF inspectors.

- SCI eligibility and use has been expanded rapidly in the Naval and Marine Corps reserve programs, with the result that they have increased their important contribution in intelligence production while attaining, high number, and SCI is being brought to bear in Coast Guard drug interdiction and other tasks.

- Centralization of SSO support to all DOD SCI contracts under NIC-44 resulted in standardization of procedures and much enhanced security of Navy SCI contracts.

- The most significant achievement of NIC-44 was uninterrupted continuation of SSO support to SCI contracts and threat support to the weapons systems acquisition process through an uncertain transition period until the resource transfer was complete.

The substantial growth and quality, and responsive special security support have been accomplished with very austere resources which have grown little over the past several years. The Navy's Special Security System has available far less personnel than their counterparts in the other services, yet has met the most dynamic needs of OPTIMEPO and forward deployments. Individual productivity has been increased even faster than the soaring workload, and expanded contribution of reserve personnel and overtime work have aided improvement of special security support at all levels. In directing the use of SCI in the Navy, NAVINICOM has successfully struck the proper balance between outstanding support to operations and responsiveness, on the one hand, while achieving the essential level of security of SCI on the other.
